

The Palletline Difference

The Power of Partnership

Palletline was the UK's first premium palletised freight distribution business and today is the only network that is fully owned by its shareholder members.

Leading the way in the network freight distribution sector from our launch in 1992, Palletline has revolutionised the way pallets are transported, through our forward-thinking approach to development and 'hub and spoke' distribution method.

- 100% shareholder member owned
- Every member is a high quality, well-established logistics expert in their own right
- We operate a unique multi-hub model delivering cost effective and greener palletised freight transportation
- Each site has been purpose built and optimised to operate as efficiently and transparently as possible
- We are the industry leaders in health and safety
- Palletline was built on innovation and has been leading the way in systems and technology since its inception in 1992
- Our network of 97 members are focused on delivering the highest levels of customer service and quality delivery performance on every job (monitored through our internal KPI reporting)
- We are the only UK pallet network on Amazon's Inbound Preferred Carrier Programme (IPCP) – recently gaining top partner in Europe as part of Amazon's KPI monitoring

palletline

Network Freight Distribution

QUALITY MEMBERS

Palletline's shareholder membership is robust and reliable, with 65% of it's members having been with the network for more than 10 years.

It's a network-wide partnership that works - employing more than 12,000 people, operating 6,000 vehicles and handling more than 20,000 pallets of freight a night.

And with a service levels tracking more than 2% higher than the industry average, you can rest assured your freight is in safe hands.
