

European Deliveries

Edge's own vehicles operate within the UK mainland only however we can access Ireland and other European delivery and collection services through Palletline and selected sub-contractors.

Palletline European consignments are limited to a maximum of 3 pallets/spaces.

If you import or export, you must have an Economic Operator Registration and Identification (EORI).

Please ensure that you provide us with ALL relevant information prior to placing a job on the portal for collection.

If we receive a consignment with information missing, we may have to return the goods to you at your cost.

- 🚚 **Ireland** - Most base costs for deliveries to Ireland can be found on your issued rates.
- 🚚 **European Countries** - are quoted via the Commercial team.

Base rates do not include additional charges for duties or customs.

We do not have visibility of these (or the expertise to calculate) so please be mindful that further invoices may follow once the delivery has been made and any additional costs are identified.

Edge, and our partners, are unable to provide guarantees on transit times due to current process.

Commercial Invoice

A Commercial Invoice must be supplied for all consignments. Please email this to traffic@edgetransport.co.uk as soon as you manifest the consignment on the job portal.

All of the following information needs to be quoted on the documentation otherwise it will be rejected and delay transit:

- 🚫 Product Country of origin
- 🚫 Date
- 🚫 Correct measurement of unit (weight/rods/box/crate)
- 🚫 Unit price
- 🚫 Quantity of items
- 🚫 Total price
- 🚫 Product description including HS/Taric code/Commodity code
- 🚫 Consignee telephone numbers and address
- 🚫 EORI Number for both Exporter and Importer also receiver if different
- 🚫 Name and address of both Exporter and Importer, also the receiver if different
- 🚫 Terms of sale (e.g. DAP)
- 🚫 Mode of shipment (air/sea/road) Value of goods with the currency €, £ Extra charges (insurance, packaging)
- 🚫 Certifications (fumigation certs may apply)

Postcode Identifier

Deliveries to Europe and the Republic of Ireland need a special code inputting into the Post Code field in order to correctly route.
